

Honduras 2010

August 26th - September 5th

We co-labor with national pastors starting churches by sharing the gospel of Jesus Christ village by village, home by home, person to person.

In areas where churches have been established, V4E provides eye glasses through an eye glass clinic giving each recipient and opportunity to hear the gospel of Jesus Christ.

“The Eyes of those who see will not be dim and the ears of those who hear will listen.” Isaiah 32:3
