

R4J/V4E Honduras 2011

Team 1: July 30th – August 10th

Team 2: August 9th – August 20th

“R4J” is an evangelistic ministry with the sole objective of reaching the lost with the Gospel of our Lord Jesus Christ. Radio teams go from home to home often in remote areas with no electricity and a high rate of illiteracy, sharing the Gospel and giving solar-powered radios permanently tuned to Radio Samaritano, a Christian station. In areas with electricity, the teams give pump flashlights. In both cases, they give a Bible as there may be someone in the household who can read. National pastors follow up with discipleship and church planting.

“V4E” is a sister ministry that works alongside “R4J” with the same goals. The team sets up in communities where churches have been established, offering both free reading and prescription eyeglasses. After the people have been served, they are invited to stay and receive another gift. They hear the Gospel and receive a Bible. The local national pastor follows up and sees to the spiritual growth of those who profess Christ.

Pray NOW about joining us next year to once again journey to Honduras where the fields are literally “White for Harvest”. Where God Guides, He Provides!
